

DYNAMITE PLANTED AT ARCHBOLD ESTATE

OMEN

John D. Archbold, president of Standard Oil.

X Gross marks spot where dynamite was found.

I University

people by

all grounds

of dynamite and doubtful word

through. To this may be added

large material help in contributions

or research uses and future endowments.

This school, with an acre

half-acre and faculty with some

entertainment and central location, is

intended to make Guthrie known as

an educational center.

A mile west of the city St. Joseph's

Academy, a Catholic institution, is

well housed and purchased, and is doing

the educational work for that

area in their usual thorough man-

ner.

The people of Guthrie have supplied

themselves with church or man-

imentations, all fully ministered to

and well supported. There are 19

churches with a capacity of about

10,000.

The Methodist Episcopal hospital

and nurses training school is doing

its work in the relief of the sick

and infirm. With a high class medical

and surgical staff a devoted and con-

stant corps of nurses the percentage

of recoveries in all the departments

is equal to the best in the country.

This hospital has, for years, been

doing fine work for those unable

to pay up to one third and more of its

total. To the people of Guthrie

such credit must be given for their

charity which has made this possi-

ble. The nurses work out a

percentage which is high in com-

parison and demand.

The city is well and economically

developed. The major and minor

streets being made and attrac-

tive to the various departments of

municipal needs and regulation. The

city has given evidence of their

desire for a clean town and

a representation of the law abiding

citizens.

There are many beautiful stone

mansions and well kept yards and

green lawns and gardens.

She is an important witness at

the trial of Hoen and did not dare

exaggerate at marching a man

whose designs were not unlike her

own. There are believed to be no

differences, and it is probable she will

be buried at the expense of the com-

munity.

You Or No One Else

can't be beat. You like what will

you if your hair does not stop falling

off?

Dray's Drug Store.

HORSE TAKEN UP.

I have taken up a stray horse, and

have some new in my pasture, 1 mile

south of Guthrie on Division street and

40 ft. wide street. Price K. M. 152

Owner can have same by paying ex-

pense of advertising and care. The

horse is brown weight about 1000 lbs.

EMERY MICHAEL.

Cough Medicine for Children.

Mrs. High from Scranton, N. Y., says: "About four years ago when we were living in Chautauk, N. Y., I received two of my children suffering from colds with chilblains on their hands and found it just as effective as any other. It prevents the skin from getting and keeps it soft and supple. Then take Sarsaparilla and ginger root with some dried mint leaves and anything else you like. I drink it everywhere."

HIN PEOPLE CAN

INCREASE WEIGHT

TO DARKEN HAIR

APPLY SAGE TEA

A few applications of Sage Tea and

Sulphur bring back its vigor,

color, gloss and thickness.

Common garden sage, bruised upon a

very hot iron, applied and allowed

to stand over night, the hair becomes

dark and shiny.

The hair is washed with Water, Sage

and Sulphur, so as not to become

dry and brittle.

A few drops of oil are added to the

water and the hair becomes

soft and shiny.
